

NODALIS HOTSPOT

Do you own a coffee shop, hotel, restaurant or other public business? Would you like to increase sales and add a new recurring revenue source at the same time? Would you like to be your neighborhood ISP? Make MONEY off of your internet connection? Then becoming a WiFi Hotspot location is for you.

Build your own Wifi Hotspot with our simple to install Router Firmware and offer Broadband internet the simple and easiest way. Install our Hotspot in a Box Kit or Firmware and convert your Wireless network into a Hotspot. Users pay by credit card or Paypal and you get paid. We do all the billing and network management for you if you want or do it in your own server.

This Hotspot service allows business operators to provide reliable and secure wireless Internet access to visitors, guests and other users without buying expensive specialist equipment, or committing to long term agreements or the fixed overhead of monthly maintenance, network availability or other costs.

You own the software!

- Create unlimited hotspot landing pages
- Unlimited [PayPal](#) accounts and can assign them to hotspot landing pages
- Heartbeat script phones home with information from each hotspot
- Print out prepaid tickets with each hotspots logo (pdf format).
- Each hotspot has an image uploader and wysiwyg web based editor to completely brand each landing page.
- Individually set time plans and prices for each hotspot
- Everything is fully brand-able.
- Walled gardens, and pre approved websites such as airports weather and bus routs
- Our custom firmware is free to install into all routers and has the option to create self healing mesh networks.
- Best of all, there is no revenue sharing, you own the radius server and charge your own prices.
- You are up and running in 15 minutes!
